

SANDY BUSBY

Women's Service - 2009

There are some people who delegate, some who show up to work and then there is Sandy who always volunteers, shows up and gets the job done. She has served on every Women's Association Committee. She has been a Delegate to the State's Annual Meeting many times and has traveled to the National Convention on behalf of the Association. Sandy has been a lane monitor, t-shirt screener and merchandiser. She has done with great efficiency anything asked of her by the Associations Officials. Her dedication to bowling goes beyond the WBA. She has been an officer in the 600 Club, a member of the Bowling Council and an integral part of the Transition Board that worked on the Merger of the Association to form the Greater OKC Area USBC Association in 2005. Sandy would keep informed of rule changes she could voice opinions of the bowlers she represented. It's not often we get to recognize workers behind the scene that do all the work, so because of her dedication and hard work to the sport of bowling the Oklahoma City Bowling Council proudly induct Sandy Busby into its Hall of Fame.
