3. HANDICAP is determined as (210 minus your ENTERING AVERAGE) multiplied by 80%.
4. If current season average (as of January 20, 2025) of a single USBC league average exceeds last season's average by 10 or more pins, current season average (as of January 20, 2025) must be used (Rule 319a-2).

6. The average adjustment rule will apply (Rule 319e).
7. It is each bowler's responsibility to verify the accuracy of their own average in handicap tournaments, whether originally submitted by the bowler, the team captain or others. Failure to use the correct average may disqualify the score if submitted average is lower than correct average, thereby resulting in a lower classification or more handicap. Prize winnings will be based on the submitted average, if it is higher than the correct average (Rule 319-3).
8. If there is a breakdown of pin-setting equipment or scoring device bowlers may be moved to the first available lanes, or may bowl out on one lane if a pair of lanes is not available. Failure of the scoring device shall not void score of games already completed, but if the status of an incomplete game cannot be recreated through the automatic scoring equipment data file, the game underway shall be re-bowled.
